Item 1. End of Rollout

The Rollout of MOT Computerisation will be completed by 31 March 2006. After this date, all MOT tests must be carried out using the new computerised system.

If by 31 March 2006, your VTS has not been installed, activated and/or does not have an MOT Tester who has been trained and deemed competent to use MOT Computerisation; **your VTS will be suspended from testing**. In addition you must not issue old style Test Certificates (VT20s) after this date.

Immediately after 31 March, please contact your local Area Office to arrange collection of all unused Test Certificates.

If your site has not been activated, you will also need to return the Test Register (VT12), including counterfoils, of all certificates issued during the past 18 months.
